STANDARD (PART 2)

Focus: Reading Comprehension, Meaning, and Summary (Questions 31 - 60)

Section C: Reading Comprehension (Cambridge 0500/1123 Style)

Text A: The Digital Nomad Dilemma

The rise of the "digital nomad" has been lauded as the ultimate liberation from the corporate grind. Armed with laptops and passports, a new generation of workers is trading grey cubicles for sun-drenched Balinese beaches or bustling Lagosian cafes. However, this idyllic narrative obscures a more complex reality. Local economies often suffer from "gentrification by Wi-Fi," where the influx of high-earning foreigners drives up rents, pricing out the very residents who give these places their charm. Furthermore, the constant quest for the perfect background for social media often leads to a shallow engagement with the host culture. While the freedom is undeniable, the footprint left behind is often deeper and more disruptive than nomads care to admit.
