Every question answered incorrectly — what was chosen vs. the correct answer

MATHEMATICS**+ Operations & BODMAS — 2/3 correct**

X 5,000 – 2,478 = ?
 Answered: C — 2,522 · Correct: B — 2,532

✓ What is the square root of 81?

✓ Solve using BODMAS: $10 + 5 \times 2$

½ Fractions & Decimals — 4/6 correct

X Which is the largest?
 Answered: A — 0.65 · Correct: D — 0.650

✓ Simplify 18/24.

X $2.5 + 0.75 = ?$
 Answered: B — 2.25 · Correct: A — 3.25

✓ Divide 40 in ratio 1:3.

✓ Which fraction is larger: $\frac{1}{2}$ or $\frac{1}{4}$?

✓ Add $\frac{1}{4} + \frac{1}{2}$.

ENGLISH LANGUAGE

Grammar & Tenses — 4/5 correct

✓ She ____ to school daily.

✓ I saw ____ elephant.

✓ Which sentence uses the correct article?

✓ "John and ____ went to the park."

✗ What is the indirect speech of: He said, 'I am tired.'?

Answered: C — He said he is tired · Correct: B — He said that he was tired

Spelling & Punctuation — 2/3 correct

✗ Which is the correct spelling?

Answered: A — Accomodation · Correct: B — Accommodation

✓ What is the plural of 'Child'?

✓ What is the opposite of 'Happy' using a prefix?

Sentence Structure — 2/4 correct

✓ Rearrange: "go / I / school / daily"

✗ Which word is an adjective?

Answered: C — Quickly · Correct: B — Beautiful

✓ "She ran ____ to catch the bus." Choose the correct adverb.

✗ "Stop that noise!" — What type of sentence is this?

Answered: B — Exclamatory · Correct: C — Imperative

4-WEEK RECOVERY PLAN

Targeted study actions for Adediran's 3 weakest concept areas. Follow this plan consistently for the best results before JSS1.

1 Priority 1 Gap

Sentence Structure

50% — Priority Gap

Understanding how sentences are built — types, parts of speech, word order — is essential for both comprehension and composition in JSS1.

Week 1

Sentence types: declarative, interrogative, imperative, exclamatory. Write one of each type daily.

Week 2

Parts of speech: identify nouns, verbs, adjectives and adverbs in sentences. 5 sentences per day.

Week 3

Sentence rearrangement: jumbled words into correct sentences. 10 exercises daily — increase difficulty each day.

Week 4

Similes and collective nouns: write 3 sentences using similes. Identify figurative language in short texts.

2 Priority 2 Gap

$\frac{1}{2}$ Fractions & Decimals

67% — Priority Gap

Fractions, decimals, ratios and percentages all appear in JSS1 from week 1 and also underpin science and commerce topics.

Week 1

Equivalent fractions: make paper fraction strips. Simplify 10 fractions daily. Compare fractions with different denominators.

Week 2

Add and subtract fractions with unlike denominators. Convert improper fractions $\leftrightarrow$ mixed numbers — 10 each.

Week 3

Decimal place value and addition/subtraction. Convert fractions to decimals and percentages — create a conversion chart.

Week 4

Ratio and percentage word problems — 10 per day. Full mixed test on all fraction/decimal skills.

3 Priority 3 Gap

+ Operations & BODMAS

67% — Priority Gap

Arithmetic accuracy and order of operations appear in every JSS1 exam paper. Errors here cascade into every other topic — fractions, algebra, word problems.

Week 1

Times tables 1–12: timed drill (3 mins, target 50+ correct). Division as reverse multiplication — 10 daily.

Week 2

BODMAS: 10 stepped problems daily. Introduce brackets progressively. No calculator allowed.

Week 3

Mixed operations word problems. Squares (1–15) and square roots (perfect squares to 144).

Week 4

Timed test: 30 arithmetic problems in 20 minutes. Review any operation still causing errors.
